## 2 Operating instruction

### 2.1 Turning on/off the MP3 player

Slide ON/OFF switch to the right. The OLED display will light up.  
Slide ON/OFF switch to the left. The MP3 player will shut off.

### 2.2 Main menu

Press the "Menu" button for several seconds, from any point in the menu, and the player returns automatically back to the main menu.

Six options:

- 1) MUSIC
- 2) MOVIE
- 3) RECORD
- 4) VOICE
- 5) JPG VIEW
- 6) SETTING

You can switch between options by pushing "Next/Vol+" or "Prev/Vol-" button. Then press shortly on the "Menu" button to enter the submenu or to confirm a function.

### 2.3 Changing volume

First you enter any submenu (music, voice, movie), then press and hold "A-B" button for several seconds until the volume indicator appears on the screen. Now adapt the volume with the Vol-/Vol+ buttons.

## **2.4 MUSIC**

Select "Music" mode in the main menu, by pressing once the "menu" button.

To enter any music submenu options press once the "menu button"

There are 2 different types of submenu

- A/ In stop mode (not available in playback)
- B/ In play mode (during playback)

### **2.4.1 In stop mode (not available during playback)**

Press "Menu" button once to enter the music submenu.

Three options are available:

- Local Folder
- Delete
- Repeat
- Exit

Select and confirm your choice by pushing menu button.

#### **2.4.1.1 Local folder (not available during playback)**

Here you will be able to find the files stored in different folders.

On the root folder or in any other folder you have created in Windows.

To create new folders in Windows explorer when MP3 is connected.

Open "external drive".

Create new folder

- Press "Menu" button to open Local folder
- Press "Next" or "Prev" button to select the catalog
- Press "Menu" button to confirm

#### **2.4.1.2 Delete (not available during playback)**

In the "delete file submenu, by pressing once the "menu" button, you will get a list with all songs available in the respective folder.  
By pressing once again "menu" button, you will be able to access the following

- Exit
- Delete file
- Delete all

#### **2.4.1.3 Repeat**

Normal	All songs are played once
Repeat One	Repeats the current song
Folder	Plays all the music of a specific folder
Repeat Folder	Repeats the music of a specific folder
